INTERNSHIP

Celebal Technology	Jun 2023 - Aug 2023
---------------------------	---------------------

React JS Intern

Celebal Technologies stands as a prominent software services company specializing in Data Science, Big Data, and Enterprise Cloud solutions. During my tenure as a Web Development Intern, I was entrusted with the responsibility of creating websites by utilizing a diverse range of functionalities and state-of-the-art tools.

- Make a Netflix clone to learn more about React.
- Make a user login, and sign-up page with authentication.

PROJECTS

Rapid Repair.

- Rapid Repair is a dynamic web application designed to streamline the process of booking repair services for various vehicles.
- As a front-end developer, my role in the project was crucial in crafting an intuitive user interface that enhances user experience and facilitates seamless interaction.
- Leveraging modern web technologies such as React.js, HTML, and CSS to make the website front-end more attractive and user-friendly

Id card maker

- Designed and developed a comprehensive ID card management system with a user-friendly interface.
- Implemented a website that takes data from the user and generates an ID card
- Also, add a functionality so that you can download that Id card.
